

G INK POLICIES

ARTWORK

We are happy to help with any artwork that may be needed to make your custom apparel needs come true. It always helps if you have a starting point in order to make your artwork process quick and seamless. We strive to ensure spelling, grammar, and color are all perfect before a design is completed but we do ask that you pay close attention to detail when we email you an artwork approval.

Each design will need artwork approval before moving to the next step of the process. We do not charge for artwork BUT if we find we are needing to make several major changes your order will be subject to a \$25 artwork fee that will be applied to your order once it is placed.

QUOTES

We are happy to provide you with a quote on anything we do in house. In order to give you the most accurate quote please provide us with your design idea and the amount of items you are ordering. Please remember that these are QUOTES and you will be provided with a final quote approval before payment is needed.

PAYMENT

Payment is needed upfront on all custom orders. Payment can be made via an online link, in our store front, or by check.

SCREENPRINT

We have a 24 piece minimum for all screenprint orders. Our typical turnaround time for screenprint is 7-10 business days BUT if you have a quick turnaround you need to accommodate please let us know.

When screenprinting, you can mix and match styles and colors of shirts, hoodies, sweatshirts as long as the design is the same for all prints.

If you are wanting less than 24 pieces of any design you will be subject to a \$25 screen fee.

EMBROIDERY

We have a 12 piece minimum order quantity for all embroidery orders and we ask that the thread color is the same for at least 6 pieces. This will ensure quicker run times for your items.

For embroidery orders you will be subject to a one time digitizing fee of \$25. After this is paid we will have your logo/design on file forever and will not need to charge a digitizing fee again.
